RU CHAIR

Design by/
Shane Schneck

Gathered from references of chairs in schools, lunch rooms and auditoriums, Ru is a hybrid of our collective memory and functionality.

Ru responds to the demands of everyday life with multiple talents, ease and humor, being not only stackable, but hangable and gangable. The distinct leg solution give the chair the ability to hang suspended from a table for easy cleaning, while the robust construction of cross laminated veneer make the chair strong, light weight and durable. The versatility allows for the chair to be used in every setting, from a classroom to conference, to cafe.

The RU name was taken from a Kangaroo. Its distinct posture and extended legs resembling the gesture of RU.
